

# High-Performance **COATINGS**

*Industrial / Commercial*

## **Recommended Usage**

### **Tank Linings**

- Potable Water Storage
- Fuel Storage
- Chemical Storage

### **Secondary Containment**

### **Equipment/Machinery**

### **Structural Steel**

### **Wet/Dry Wells**

### **Flooring**

### **Pipe Linings**

- Water & Sewage
- Fuel

### **Hatchery/Pond Linings**

### **Decontamination Areas**

### **Manholes/Wastewater Applications**

NSP Specialty Products offers a unique line of high-performance, solvent-free coating systems. A 12-hour full cure, moisture tolerance and tenacious adhesion to many surfaces make NSP Coatings the ideal choice for projects on a fast track. Add long term protection, zero VOC's, ease of application and you have a complete package for demanding jobs.

## **WHY IS NSP DIFFERENT?**

- ✓ Proven, field tested epoxies with a **full cure in 12 hours** offering substantial financial savings from reduced labor costs and lost production
- ✓ Application to Damp Surfaces - Underwater Cure
- ✓ **100% Solids-No VOC = Compliance with Regulations + Green Initiative**
- ✓ Personal Customer Service = Your Partner from project recommendations to color matching, shipment tracking and job completion
- ✓ Meet Tight Construction Schedules - Overnight and Weekend Shutdowns - Repair Areas that Cannot be Taken Out of Service - Time is money!
- ✓ High Build Application in One Coat = Less waste and man hours
- ✓ Exceptional adhesion and product performance = Long Term Solutions for Problem Areas
- ✓ Ease of application - Brush, roll or spray - No investment needed for application equipment
- ✓ Tile like, high gloss finish - easy to clean and maintain
- ✓ Protect your capital investment from corrosion, abrasion and chemical attack
- ✓ Demonstrated 20 year track record in 100% solids technology - Case histories in actual harsh and severe environments

**Call Now! 800-248-8907**  
**Let us help you with your next protective coating project on a fast track!**

# INDUSTRIES SERVED:

**POWER GENERATION** - **Approvals:** Nuclear - Level 1 Areas - Wet or Dry Wells  
Passed ANSI N101.2 Thermal Conductivity/ASTM 3911 for Design Basis Accident  
(DBA) & ASTM D-4082 Radiation Tolerance/Decontamination Testing per ASTM  
D4256/Chemical & Physical Exposure Test ASTM 3912, ANSI N5.12, ASTM D4060

**Uses:** SECONDARY CONTAINMENT, WET/DRY WELLS, SWEATING PIPES, DECONTAMINATION, TANK  
INTERNALS, COOLING TOWER BASINS, OFF SHORE STRUCTURES

**FOOD AND BEVERAGE** - **Approvals:** Accepted for use by the USDA in Federally Inspected Meat/Poultry Plants  
and Canadian Food Inspection Agency in Registered Establishments

**Uses:** PROVIDES HYGIENIC SURFACE THAT WITHSTANDS HIGH PRESSURE WASH DOWNS, DRY  
STORAGE, PACKAGING, WALLS, SLAUGHTER AREAS, DISTRIBUTION

**INDUSTRIAL MAINTENANCE** - **Uses:** WASTE PITS, TROUGHS, STRUCTURAL STEEL, TANK PADS,  
AMUSEMENT PARKS, BATTERY ROOMS, SUPPORT PEDESTALS, RESTORATION

**MARINE** - **Approvals:** AQUATIC TOXICOLOGY TESTING, Passes MIL-P-24380B Type II SH VOC Compliant  
Paint for Anchor Chain

**Uses:** MAN MADE AQUATIC PONDS, DAMS, FISH LADDERS, HATCHERIES, FISH HOLDS, ANCHOR  
CHAIN COATING, BALLAST TANK INTERNALS, ZOO APPLICATIONS, UNDER WATER PROJECTS

**PETROCHEMICAL** - **Uses:** FUEL STORAGE TANKS AND PIPE INTERNALS, WASTE PITS, SECONDARY  
CONTAINMENT, UNDERGROUND PIPING AND JOINTS

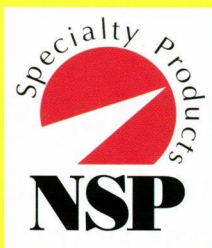

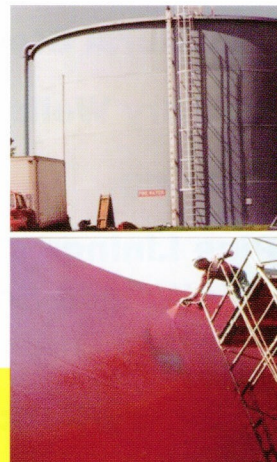

**PULP AND PAPER** - **Uses:** HIGHLY CORROSIVE ENVIRONMENT WITH NO TIME FOR SHUTDOWN -  
PAPER MACHINES, TANK INTERNALS, FLOORS, STOCK CHESTS, CRANES, STRUCTURAL STEEL

**INDUSTRIAL/COMMERCIAL FLOORING** - **Uses:** WEEKEND SHUTDOWNS IN AUTOMOBILE DEALER-  
SHIPS AND GARAGES, KITCHENS, WAREHOUSES, TIGHT CONSTRUCTION OR REPAIR SCHEDULES,  
AISLEWAYS, LOADING DOCKS, NON-SLIP SAFETY COATINGS AND STRIPING, AIRCRAFT HANGARS

**WATER AND WASTEWATER** - **NSP120 - NSF Certified Version to Std. 61 Tank/Pipe Interiors**

**Uses:** TANK AND PIPE INTERNALS, MANHOLES, PITS, COAL TAR ENCAPSULATION,  
REHABS, BASINS, SEWAGE MAINS, LIFT STATIONS, CLARIFIERS, WEIRS, RAKES

**GOVERNMENTAL** - **Uses:** FLOORING IN ANIMAL SHELTERS, FIREHOUSES, JAIL  
CELLS, SHOWERS AND FLOORS, LABORATORIES, SCHOOLS
